EXPLANTARY NOTE

This Amendment No. 1 on Form 20-F/A (this "Amendment No. 1") to our annual report on Form 20-F for the year ended December 31, 2010, filed with the Securities and Exchange Commission on March 29, 2011 (the "2010 Form 20-F"), is filed solely for the purposes of correcting a clerical error in the 2010 Form 20-F. The electronic signature of Ernst & Young Hua Ming was inadvertently omitted from the Report of Independent Registered Public Accounting Firm, included in Item 8A and from the Report of Independent Registered Public Accounting Firm included in Item 15 in the 2010 Form 20-F. As required by Rule 12b-15 of the Securities and Exchange Act of 1934, as amended, the Company is also filing as exhibits to Amendment No. 1 the certifications required under Section 302 of the Sarbanes-Oxley Act of 2002.

This Amendment No. 1 speaks as of the filing date of the 2010 Form 20-F on March 29, 2011. Other than as set forth above, this Amendment No. 1 does not, and does not purport to, amend, update or restate any other information or disclosure included in the 2010 Form 20-F or reflect any events that have occurred since March 29, 2011.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, has performed an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report, as required by Rule 13a-15(b) under the Exchange Act.

Based upon that evaluation, our management has concluded that, as of December 31, 2010, our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file and furnish under the Exchange Act was recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act. Our management evaluated the effectiveness of our internal control over financial reporting, as required by Rule 13a-15(c) of the Exchange Act, based on criteria established in the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2010.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness of our internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Our independent registered public accounting firm, Ernst & Young Hua Ming, has audited the effectiveness of our internal control over financial reporting as of December 31, 2010, as stated in its report, which appears on page F-2 of this annual report on Form 20-F.

Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the period covered by this annual report on Form 20-F that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Baidu, Inc.

We have audited the accompanying consolidated balance sheets of Baidu, Inc. (the "Company") as of December 31, 2010 and 2009, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Baidu, Inc. as of December 31, 2010 and 2009, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Baidu, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 29, 2011 expressed an unqualified opinion thereon.

/s/ Ernst & Young Hua Ming

Beijing, The People's Republic of China
March 29, 2011

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**The Board of Directors and Shareholders
Baidu, Inc.**

We have audited Baidu, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Baidu, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Baidu, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the accompanying consolidated balance sheets of Baidu, Inc. as of December 31, 2010 and 2009, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2010 of Baidu, Inc., and our report dated March 29, 2011, expressed an unqualified opinion thereon.

/s/ Ernst & Young Hua Ming

Beijing, The People's Republic of China
March 29, 2011

Item 18. Financial Statements

The consolidated financial statements of Baidu, Inc. and its subsidiaries are included on page F-1 through F-42 of the 2010 Form 20-F, which was filed on March 29, 2011.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Baidu, Inc.

We have audited the accompanying consolidated balance sheets of Baidu, Inc. (the "Company") as of December 31, 2010 and 2009, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Baidu, Inc. as of December 31, 2010 and 2009, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Baidu, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 29, 2011 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Baidu, Inc.

We have audited Baidu, Inc.'s internal control over financial reporting as of December 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Baidu, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Baidu, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the accompanying consolidated balance sheets of Baidu, Inc. as of December 31, 2010 and 2009, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2010 of Baidu, Inc., and our report dated March 29, 2011, expressed an unqualified opinion thereon.

/s/ Ernst & Young Hua Ming

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2008, 2009 AND 2010

1. ORGANIZATION, CONSOLIDATION AND PRESENTATION OF FINANCIAL STATEMENTS

Baidu, Inc. ("Baidu" or the "Company") was incorporated under the laws of the Cayman Islands on January 18, 2000. The Company was formerly known as Baidu.com, Inc. and changed its name to Baidu, Inc. on December 16, 2008. The Company is the sole shareholder of Baidu Holdings Ltd. ("Baidu Holdings") incorporated in the British Virgin Islands.

As of December 31, 2010, Baidu Holdings owns the following subsidiaries:

- Baidu Online Network Technology (Beijing) Co., Ltd. ("Baidu Online") incorporated under the laws of the People's Republic of China ("PRC") on January 18, 2000,
- Baidu Japan Inc. ("Baidu Japan") incorporated under the laws of Japan on December 13, 2006,
- Baidu (Hong Kong) Limited ("Baidu HK") incorporated under the laws of Hong Kong on November 27, 2007, and
- Baidu International Technology (Shenzhen) Co., Ltd. ("Baidu International") incorporated under the laws of the PRC on November 23, 2010.

Baidu HK owns the following subsidiaries in the PRC:

- Baidu (China) Co., Ltd. ("Baidu China") incorporated under the laws of the PRC on June 6, 2005,
- Baidu.com Times Technology (Beijing) Co., Ltd. ("Baidu Times") incorporated under the laws of the PRC on April 19, 2006, and
- Baidu Interaction (Shenzhen) Network Technology Co., Ltd. ("Baidu Interaction"), which obtained its business license in March 2009, was incorporated under the laws of the PRC. Baidu Interaction is in the process of being dissolved, but is not presented as a discontinued operation since the entity has not started operating since its inception.

Baidu Japan has established the following wholly-owned subsidiaries in Japan and the USA:

- Hyakudo Inc. ("Hyakudo") incorporated under the laws of Japan on April 14, 2008,
- Baido, Inc. ("Baido") incorporated under the laws of Japan on April 14, 2008, and
- Baidu USA LLC incorporated under the laws of the USA on November 12, 2010.

As of December 31, 2010, the Company also effectively controls the following variable interest entities ("VIEs"):

- Beijing Baidu Netcom Science Technology Co., Ltd. ("Baidu Netcom") incorporated under the laws of the PRC on June 5, 2001,
- Beijing Perusal Technology Co., Ltd. ("Beijing Perusal") incorporated under the laws of the PRC on June 6, 2006,
- Beijing BaiduPay Science and Technology Co., Ltd. ("BaiduPay") incorporated under the laws of the PRC on February 27, 2008, and
- Baidu HR Consulting (Shanghai) Co., Ltd. ("Baidu HR") incorporated under the laws of the PRC on December 28, 2010.

The Company, its subsidiaries and VIEs are hereinafter collectively referred to as the "Group." The Group offers Internet search solutions and online marketing solutions, operates an e-commerce platform with an online payment tool which enables e-commerce merchants and customers to make payments online, develops and markets

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

scalable web application software and provides related services, as well as provides human resource related services including employment agency services. The Group's principal geographic market is in the PRC and Japan. The Company does not conduct any substantive operations of its own but conducts its primary business operations through its wholly-owned subsidiaries and VIEs in the PRC.

PRC laws and regulations prohibit or restrict foreign ownership of Internet content and advertising businesses. To comply with these foreign ownership restrictions, the Group operates its websites and primarily provides online advertising services in the PRC through VIEs, the PRC legal entities that were established by the individuals authorized by the Group. The paid-in capital of the VIEs was funded by the Group through loans extended to the authorized individuals. The Group has entered into certain exclusive agreements with the VIEs through Baidu Online, which obligate Baidu Online to absorb a majority of the risk of loss from the VIEs' activities and entitles Baidu Online to receive a majority of their residual returns. In addition, the Group has entered into certain agreements with the authorized individuals through Baidu Online, including loan agreements for the paid-in capital of the VIEs, option agreements to acquire the equity interests in the VIEs when permitted by the PRC laws, and share pledge agreements for the equity interests in the VIEs held by the authorized individuals.

Despite the lack of technical majority ownership, there exists a parent-subsidiary relationship between the Company and VIEs through certain agreements with the authorized individuals through Baidu Online, including loan agreements for the paid-in capital of the VIEs, option agreements to acquire the equity interests in the VIEs when permitted by the PRC laws, and share pledge agreements for the equity interests in the VIEs held by the authorized individuals. The equity holders of VIEs effectively assigned all of their voting rights underlying their equity interest in VIEs to Baidu Online. In addition, through the other aforementioned agreements, the Company demonstrates its ability and intention to continue to exercise the ability to absorb substantially all of the profits and all of the expected losses of VIEs. The VIEs are subject to operating risks, which determine the variability of the Company's interest in those entities. Based on these contractual arrangements, the Company consolidates the VIEs as required by Accounting Standards Codification ("ASC") subtopic 810-10 ("ASC 810-10"), *Consolidation: Overall*, because the Company holds all the variable interests of VIEs through Baidu Online, which is the primary beneficiary of the VIEs.

The carrying amount of the total assets of VIEs was RMB1.19 billion (US\$180.92 million) as of December 31, 2010 and there was no pledge or collateralization of their assets. The amount of the net assets of VIEs, which are restricted under PRC laws and regulations (Note 13), was RMB341.10 million (US\$51.68 million) as of December 31, 2010.

Basis of Accounting

The consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP").

Principles of Consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries and VIEs in which the Company holds all the variable interests of VIEs through Baidu Online. All inter-company transactions and balances between the Company, its subsidiaries and VIEs are eliminated upon consolidation. The Company has included the results of operations of acquired businesses from the respective dates of acquisition.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Management evaluates estimates, including those

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

related to the accounts receivable allowances, fair values of options to purchase the Company's ordinary shares, fair values of certain equity investments, and deferred tax valuation allowance, among others. Management bases the estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from these estimates.

Comparative Information

Certain items in prior years' consolidated financial statements have been reclassified to conform to the current year's presentation in accordance with the requirement under eXtensible Business Reporting Language ("XBRL") to facilitate comparison.

Currency Translation for Financial Statements Presentation

Translations of amounts from RMB into US\$ for the convenience of the reader have been calculated at the exchange rate of RMB6.6000 per US\$1.00 on December 30, 2010 as published on the website of the Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted into U.S. dollars at such rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Foreign Currency**

The Company's functional currency is the US\$. The Company's subsidiaries and VIEs determine their functional currencies based on the criteria of ASC subtopic 830-10 ("ASC 830-10"), *Foreign Currency Matters: Overall*, and have determined their functional currencies to be their respective local currency. The Company uses the RMB as its reporting currency. The Company uses the average exchange rate for the year and the exchange rate at the balance sheet date to translate its operating results and financial position, respectively. Any translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of shareholders' equity. Transactions denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing on the transaction dates. Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the balance sheet date. Exchange gains and losses are included in the consolidated statements of income as a component of other income.

Cash and Cash EquivalentsCash and Cash Equivalents

Cash and cash equivalents are stated at cost, which approximates fair value, and primarily consist of cash and investments in interest bearing demand deposit accounts, time deposits, highly liquid investments and money market funds. All highly liquid investments with original maturities of three months or less from the date of purchase are classified as cash equivalents.

Restricted Cash

Restricted cash consists of the cash balances deposited by the customers of the Company's e-commerce platform.

In 2008, the Company introduced an e-commerce platform and an online payment platform which enables e-commerce merchants and customers to send and receive payments online. Cash balances deposited by the customers of the Company's e-commerce platform are considered restricted because they cannot be used for the operations of the Group or any other purpose not designated by customers. When customers fund their accounts in

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

the e-commerce platform using their bank accounts, the deposited balance is included in the Company's bank account until customers either use the cash to settle their online transactions or withdraw the cash.

InvestmentsShort-Term Investments

All highly liquid investments with original maturities of greater than three months, but less than 12 months, are classified as short-term investments which are stated at their approximate fair value. The Company accounts for short-term investments in accordance with ASC subtopic 320-10 ("ASC 320-10"), *Investments — Debt and Equity Securities: Overall*. The Company classifies the short-term investments in debt and equity securities as "held-to-maturity", "trading" or "available-for-sale", whose classification determines the respective accounting methods stipulated by ASC 320-10. Dividend and interest income, including amortization of the premium and discount arising at acquisition, for all categories of investments in securities are included in earnings. Any realized gains or losses on the sale of the short-term investments are determined on a specific identification method, and such gains and losses are reflected in the consolidated statements of income.

The securities that the Company has positive intent and ability to hold to maturity are classified as held-to-maturity securities and stated at amortized cost. For individual securities classified as held-to-maturity securities, the Company evaluates whether a decline in fair value below the amortized cost basis is other than temporary in accordance with the Company's policy and ASC 320-10. If the Company concludes that it does not intend or is not required to sell an impaired debt security before the recovery of its amortized cost basis, the impairment is considered temporary and the held-to-maturity securities continue to be recognized at the amortized costs. When the Company intends to sell an impaired debt security or it is more likely than not that it will be required to sell prior to recovery of its amortized cost basis, an other-than-temporary impairment is deemed to have occurred. In these instances, the other-than-temporary impairment loss is recognized in the consolidated statements of income equal to the entire excess of the debt security's amortized cost basis over its fair value at the balance sheet date of the reporting period for which the assessment is made. When the Company does not intend to sell an impaired debt security and it is more likely than not that it will not be required to sell prior to recovery of its amortized cost basis, the Company must determine whether or not it will recover its amortized cost basis. If the Company concludes that it will not, an other-than-temporary impairment exists and that portion of the credit loss is recognized in the consolidated statements of income, while the portion of loss related to all other factors is recognized in other comprehensive income.

The securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Unrealized holding gains and losses for trading securities are included in earnings.

Investments not classified as trading or as held-to-maturity are classified as available-for-sale securities. Available-for-sale investment is reported at fair value, with unrealized gains and losses recorded in accumulated other comprehensive income in shareholders' equity. Realized gains or losses are charged to earnings during the period in which the gain or loss is realized. An impairment loss on the available-for-sale debt securities would be recognized in the consolidated statements of income when the decline in value is determined to be other-than-temporary.

Long-term Investments

The Company's long-term investments consist of cost method investments, equity method investments and available-for-sale securities.

In accordance with ASC subtopic 325-20 ("ASC 325-20"), *Investments-Other: Cost Method Investments*, for investments in an investee over which the Company does not have significant influence, the Company carries the investment at cost and only adjusts for other-than-temporary declines in fair value and distributions of earnings. The

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

management regularly evaluates the impairment of the cost method investments based on performance and financial position of the investee as well as other evidence of market value. Such evaluation includes, but is not limited to, reviewing the investee's cash position, recent financing, projected and historical financial performance, cash flow forecasts and financing needs. An impairment loss is recognized in the consolidated statements of income equal to the excess of the investment's cost over its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value would then become the new cost basis of investment.

Investments in entities in which the Company can exercise significant influence but does not own a majority equity interest or control are accounted for using the equity method of accounting in accordance with ASC subtopic 323-10 ("ASC 323-10"), *Investments-Equity Method and Joint Ventures: Overall*. Under the equity method, the Company initially records its investment at cost and adjusts the carrying amount of the investment to recognize the Company's proportionate share of each equity investee's net income or loss into consolidated statements of income after the date of acquisition. The difference between the cost of the equity investee and the amount of the underlying equity in the net assets of the equity investee is recognized as equity method goodwill included in equity method investment on the consolidated balance sheets. The Company evaluates the equity method investments for impairment under ASC 323-10. An impairment loss on the equity method investments is recognized in the consolidated statements of income when the decline in value is determined to be other-than-temporary.

The Company's long-term investments in available-for-sale securities are the investments which are neither classified as cost method investments nor equity method investments. In accordance with ASC 320-10, *Investments — Debt and Equity Securities: Overall*, available-for-sale securities are reported at fair value, with unrealized gains and losses recorded in accumulated other comprehensive income in shareholders' equity. Realized gains or losses are charged to earnings during the period in which the gain or loss is realized.

Fair Value Measurements of Financial Instruments

Financial instruments include cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued liabilities, customer advances and deposits, deferred revenue, deferred income and loans payable. The carrying amounts of these financial instruments except for loans payable approximate fair value because of their generally short maturities. The carrying amount of loans payable approximates its fair value due to the fact that the related interest rates are reset each year based on prevailing market interest rates.

Research, Development, and Computer Software***Capitalization of Software Developed for Internal Use***

The Company has capitalized certain internal use software development costs in accordance with ASC subtopic 350-40 ("ASC 350-40"), *Intangibles-Goodwill and Other: Internal-Use Software*, amounting to RMB19.49 million, RMB12.59 million and RMB10.38 million (US\$1.57 million) for the years ended December 31, 2008, 2009 and 2010, respectively. The Company capitalizes certain costs relating to software acquired, developed, or modified solely to meet the Company's internal requirements and for which there are no substantive plans to market the software. These costs mainly include payroll and payroll-related costs for employees who are directly associated with and who devote time to the internal-use software projects during the application development stage. Capitalized internal-use software costs are included in fixed assets, net. The amortization expense for capitalized software costs amounted to RMB3.44 million, RMB9.77 million and RMB8.86 million (US\$1.34 million) for the years ended December 31, 2008, 2009 and 2010, respectively. The unamortized amount of capitalized internal use software development costs was RMB26.16 million and RMB15.28 million (US\$2.32 million) as of December 31, 2009 and 2010, respectively.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Research and Development Expenses

Research and development expenses consist primarily of personnel-related costs. The Company has expensed substantially all development costs included in the research and development of products and new functionality added to the existing products as incurred, except for certain internal-use software and certain core technologies with alternative future uses.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation or amortization is recorded on a straight-line basis over the shorter of the estimated useful lives of the assets or the term of the related lease, as follows:

Office building	— 45 years
Office building related facility, machinery and equipment	— 15 years
Computer equipment	— 3 or 5 years
Internal use software development costs	— 3 years
Office equipment	— 3 or 5 years
Vehicles	— 5 years
Leasehold improvements	— over the shorter of lease terms or estimated useful lives of the assets

Fixed assets have no estimated residual value except for the office building and its related facility, machinery and equipment, which have an estimated residual value of 4% of the cost.

Repair and maintenance costs are charged to expense as incurred, whereas the cost of renewals and betterments that extend the useful life of fixed assets are capitalized as additions to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the asset and accumulated depreciation accounts with any resulting gain or loss reflected in the consolidated statements of income.

All direct and indirect costs that are related to the construction of fixed assets and incurred before the assets are ready for their intended use are capitalized as construction in progress. Construction in progress is transferred to specific fixed assets items and depreciation of these assets commences when they are ready for their intended use.

Goodwill and Intangible AssetsGoodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets acquired in a business combination. The Company assesses goodwill for impairment in accordance with ASC subtopic 350-20 ("ASC 350-20"), *Intangibles — Goodwill and Other: Goodwill*, which requires that goodwill be tested for impairment at the reporting unit level at least annually and more frequently upon the occurrence of certain events, as defined by ASC 350-20. Baidu's chief operating decision maker only reviews the Company's discrete financials at its consolidated level and there are no segment managers who are held accountable by the Company's chief operating officer or anyone else, for operations, operating results, and planning for levels or components below the consolidated level. Accordingly, consistent with the management's operational perspective, the Company determines that it has only one reporting unit. Goodwill was tested for impairment in the annual impairment tests on December 31 in each year using the two-step process required by ASC 350-20. First, the Company reviewed the carrying amount of the reporting unit compared to the "fair value" of the reporting unit based on quoted market prices of the ordinary shares. If the fair value of the reporting unit exceeds the carrying value of the reporting unit, goodwill is not impaired and the Company is not required to perform further testing. If the carrying value of the

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

reporting unit exceeds the fair value of the reporting unit, then the Company must perform the second step of the impairment test in order to determine the implied fair value of the reporting unit's goodwill. That is, the Company would then prepare the discounted cash flow analyses. Such analyses are based on cash flow assumptions that are consistent with the plans and estimates being used to manage the business. An excess carrying value compared to fair value would indicate that goodwill may be impaired. Finally, if the Company determined that goodwill may be impaired, the implied fair value of the goodwill, as defined by ASC 350-20, would be compared to its carrying amount to determine the impairment loss, if any. There has been no impairment of goodwill in any of the years presented.

Intangible Assets

Intangible assets with finite lives are carried at cost less accumulated amortization. The land use right is amortized using a straight-line method over the shorter of its estimated economic life or the term of related land use right contract. All other intangible assets with finite lives are amortized using the straight-line method over the estimated economic life.

Intangible assets have weighted average useful lives from the date of purchase as follows:

Domain names	— 5.0 years
Customer relationships	— 4.9 years
Non-competition agreements	— 3.9 years
Software	— 5.9 years
Contract-based assets	— 2.3 years
Trademark	— 9.6 years
Land use right	— 50 years

Intangible assets with an indefinite useful life are not amortized. There have been no impairment charges on the Company's intangible assets with finite useful lives in any of the years presented.

If the intangible assets that are not being amortized are subsequently determined to have a finite useful life, the assets will be tested for impairment in accordance with ASC subtopic 350-30 ("ASC 350-30"), *Intangibles-Goodwill and Other: General Intangibles Other than Goodwill*, and then amortized prospectively over their estimated remaining useful lives and accounted for in the same manner as other intangible assets that are subject to amortization. Intangible assets with indefinite useful lives are tested for impairment annually or more frequently if events or changes in circumstances indicate that they might be impaired. There have been no impairment charges on the Company's intangible assets with indefinite useful lives in any of the years presented.

Impairment of Long-Lived Assets Other Than Goodwill

The Company evaluates long-lived assets, such as fixed assets and purchased or internally developed intangible assets with finite lives, for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable in accordance with ASC subtopic 360-10 ("ASC 360-10"), *Property, Plant and Equipment: Overall*. When such events occur, the Company assesses the recoverability of the assets group based on the undiscounted future cash flow the assets group is expected to generate and recognizes an impairment loss when estimated undiscounted future cash flow expected to result from the use of the assets group plus net proceeds expected from disposition of the assets group, if any, is less than the carrying value of the assets group. If the Company identifies an impairment, the Company reduces the carrying amount of the assets group to its estimated fair value based on a discounted cash flow approach or, when available and appropriate, to comparable market values. The Company uses estimates and judgments in its impairment tests and if different estimates or judgments had been utilized, the timing or the amount of any impairment charges could be different. Asset groups to be disposed of would be reported at the lower of the carrying amount or fair value less costs to sell, and no longer

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Accounts Receivable

Accounts receivable are recognized and carried at original invoiced amount less an allowance for any potential uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred. The Company generally does not require collateral from its customers.

The Company maintains allowances for doubtful accounts for estimated losses resulting from the failure of customers to make payments on time. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectibility of individual balances. In evaluating the collectibility of individual receivable balances, the Company considers many factors, including the age of the balance, the customer's historical payment history, its current credit-worthiness and current economic trends.

Revenue Recognition

The Company recognizes revenue based on the following principles:

Online marketing services

(1) Auction-based pay-for-performance service

The Company's auction-based pay-for-performance ("P4P") platform enables a customer to place its website link and related description on the Company's search result list. The customers make bids on keywords based on how much they are willing to pay for each click to their listings in the search results listed on the Company's website and the relevance between the keywords and the customer's businesses. Internet users' search of the keyword will trigger the display of the listings. The ranking of the customer's listing depends on both the bidding price and the listing's relevance to the keyword searched. Customer pays the Company only when a user clicks on one of its website links. Revenue is recognized when a user clicks on one of the customer-sponsored website links, as there is persuasive evidence of an arrangement, the fee is fixed or determinable and collection is reasonably assured, as prescribed by ASC subtopic 605-10 ("ASC 605-10"), *Revenue Recognition: Overall*.

For certain P4P customers engaged through direct sales, the Company may provide certain value-added consultative support services to help its customers to better utilize its P4P online marketing system. Fees for such services are recognized as revenue on a pro-rata basis over the contracted service period.

(2) Other performance-based online marketing services

To the extent the Company provides online marketing services based on performance criteria other than click-throughs, such as the number of telephone calls brought to its customers, the number of users registered with its customers, or the number of minimum click-throughs, revenue is recognized when the specified performance criteria are met together with satisfaction of other applicable revenue recognition criteria as prescribed by ASC 605-10.

(3) Time-based online advertising services

For time-based online advertising services such as text links, banners, or other forms of graphical advertisements, the Company recognizes revenue, in accordance with ASC 605-10, on a pro-rata basis over the contractual term commencing on the date the customer's advertisement is displayed in a specified webpage. For certain time-based contractual agreements, the Company may also provide certain performance guarantees, in which cases revenue is recognized at the later of the completion of the time commitment or performance guarantee.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

(4) Online marketing services involving Baidu Union

Baidu Union is the program through which the Company expands distribution of its customers' sponsored links or advertisements by leveraging traffic of the Baidu Union members' internet properties. The Company makes payments to Baidu Union members for acquisition of traffic. The Company recognizes gross revenue for the amount of fees it receives from its customers. Payments made to Baidu Union members are included in cost of revenues as traffic acquisition costs.

(5) Barter transactions

The Company engages in barter transactions from time to time and in such situations follows the guidance set forth in ASC subtopic 845-10 ("ASC 845-10"), *Nonmonetary Transactions: Overall*. While nonmonetary transactions are generally recorded at fair value, if such value is not determinable within reasonable limits, the transaction is recognized based on the carrying value of the product or services provided. The amount of revenues recognized for barter transactions was insignificant for each of the periods presented.

In addition, the Company recognized revenues for barter transactions involving advertising in accordance with ASC subtopic 605-20 ("ASC 605-20"), *Revenue recognition: Services*. However, neither the amount recognized nor the volume of such transactions qualified for income recognition was material for any of the periods presented.

In certain instances, the Company may be granted equity instruments in exchange for services. In accordance with ASC subtopic 505-50 ("ASC 505-50"), *Equity: Equity-based Payments to Non-Employees*, if the Company provides services in exchange for equity instruments, the Company measures the fair value of those equity instruments for revenue recognition purposes as of the earlier of either of the following dates:

- The date the parties come to a mutual understanding of the terms of the equity-based compensation arrangement and a commitment for performance by the Company to earn the equity instruments is reached;
- The date at which the Company's performance necessary to earn the equity instruments is completed.

If, as of the measurement date, the fair value of the equity instruments received is not determinable within reasonable limits, the transaction is recognized based on the fair value of the services provided. If the fair value of both the equity instruments received and the services provided cannot be determined, no revenue is recognized for the services provided and the equity instrument received is recorded at zero carrying value. The amount of revenues recognized for such transactions was insignificant in each of the years presented.

(6) Other revenue recognition related policies

If a sales arrangement involves multiple deliverables, and the arrangement is divided into separate units of accounting in accordance with ASC subtopic 605-25 ("ASC 605-25"), *Revenue recognition: Multiple-Element Arrangements*, the total revenue on such arrangement is allocated to the individual deliverables based on their relative fair values. If sufficient vendor-specific objective evidence of fair value does not exist for the allocation of revenue, the fee for the entire arrangement is recognized ratably over the term of the arrangement or upon the delivery of the last deliverable, when other revenue recognition criteria have been met.

The Company delivers some of its online marketing services to end customers through engaging third party distributors. In this context, the Company may provide cash incentives to distributors. The cash incentives are accounted for as reduction of revenue in accordance with ASC subtopic 605-50 ("ASC 605-50"), *Revenue recognition: Customer Payments and Incentives*.

The Company provides sales incentives to customers to entitle customers to receive reductions in the price of the online marketing services by meeting certain cumulative consumption requirements. The Company accounts for these award credits granted to members in conjunction with a current sale of products or services as a multiple-element arrangement by analogizing to ASC 605-25. The consideration allocated to the award credits, as deferred revenue is based on an assumption that the customer will purchase the minimum amount of future service necessary

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

to obtain the maximum award credits available. The deferred revenue is recognized as revenue proportionately as the future services are delivered to the customer or when the loyalty points expire.

Cash received in advance from customers is recorded as customer advances and deposits. The unused cash balances remaining in customers' accounts are included as a liability of the Company. Deferred revenue is recorded when services are provided before the other revenue recognition criteria set forth in ASC 605-10 are fulfilled.

The Company operates an online game platform, on which registered users could access games provided by online game developers. The rights and obligations of each party to the arrangement indicate that the Company is acting as an agent whereas the online game developer is the principal as a result of being the primary obligor in the arrangement. The Company recognizes the shared revenue, on a net basis, based on the ratios pre-determined with the online game developers when all the revenue recognition criteria set forth in ASC 605-10 are met, which is generally when the user purchases virtual currencies issued by the game developers through the Company's payment channel. The amount of revenues recognized was not significant in each of the years presented.

Cost of Revenues

Cost of revenues consists primarily of business taxes and surcharges, traffic acquisition costs, bandwidth costs, depreciation, payroll and related costs of operations.

The Company incurs business taxes and surcharges in connection with the provision of online marketing services, technical and consultative service fees charged by Baidu Online to VIEs and other taxable services in the PRC. According to ASC subtopic 605-45 ("ASC 605-45"), *Revenue Recognition: Principal Agent Considerations*, the Company includes the business tax and surcharges incurred on its online marketing revenues in cost of revenues. The business tax and surcharges in cost of revenues for the years ended December 31, 2008, 2009 and 2010 were RMB200.09 million, RMB275.92 million and RMB504.85 million (US\$76.49 million), respectively. Traffic acquisition costs represent the amounts paid or payable to Baidu Union members who direct search queries to the Company's websites or distribute the Company's customers' paid links through their properties. These payments are primarily based on revenue sharing arrangements under which the Company pays its Baidu Union members a percentage of the fees it earns from its online marketing customers.

Advertising Expenses

Advertising expenses, primarily advertisements through various forms of media, are included in "Selling, general and administrative expense" in the consolidated statements of income and are expensed when incurred. Advertising expenses for the years ended December 31, 2008, 2009 and 2010 were RMB29.22 million, RMB77.80 million and RMB74.76 million (US\$11.33 million), respectively.

Other Income, net

Other income, net consists primarily of interest income, government subsidies, impairment of long-term investments and non-operating expenses. Interest income is mainly generated from bank deposits and other interest-earning financial assets and is recognized on an accrual basis. Other income, net primarily consists of financial subsidies received from provincial and local governments for operating a business in their jurisdictions and compliance with specific policies promoted by the local governments. During the years ended December 31, 2008, 2009 and 2010, the Group received financial subsidies of RMB22.72 million, RMB42.50 million and RMB49.14 million (US\$7.45 million), respectively, from various local PRC government authorities. There are no defined rules and regulations to govern the criteria necessary for companies to receive such benefits, and the amount of financial subsidy is determined at the discretion of the relevant government authorities. Such amounts are recorded as other income when received and there are no further conditions to be met before recognition.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Leases

Leases have been classified as either capital or operating leases. Leases that transfer substantially all the benefits and risks incidental to the ownership of assets are accounted for as if there was an acquisition of an asset and incurrence of an obligation at the inception of the lease. All other leases are accounted for as operating leases wherein rental payments are expensed as incurred. The Company had no capital leases for the years ended December 31, 2008, 2009 and 2010.

Income Taxes

The Company recognizes income taxes under the liability method. Deferred income taxes are recognized for differences between the financial reporting and tax bases of assets and liabilities at enacted tax rates in effect for the years in which the differences are expected to reverse. The Company records a valuation allowance against the amount of deferred tax assets that it determines is not more likely than not being realized. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company adopted the provisions of ASC subtopic 740-10 ("ASC 740-10"), *Income Taxes: Overall*, on January 1, 2007. ASC 740-10 clarified the accounting for uncertainty in income taxes by prescribing the recognition threshold a tax position is required to meet before being recognized in the financial statements. The Company has elected to classify interest and penalties related to an uncertain tax position (if and when required) as part of income tax expense in the consolidated statements of income. As of and for the years ended December 31, 2008, 2009 and 2010, no unrecognized tax benefits or interest and penalties associated with uncertainty in income taxes have been recognized.

Share-based Compensation

The Company adopted ASC subtopic 718-10 ("ASC 718-10"), *Compensation-Stock Compensation: Overall*, using the modified prospective transition approach from January 1, 2006. Pursuant to ASC 718-10, the Company recognized share-based compensation expense over the requisite service periods for any share-based awards granted after January 1, 2006 based on the fair values of all share-based awards on the dates of grant.

The Company has elected to recognize share-based compensation after the date of adoption of ASC 718-10 using the straight-line method for all share-based awards issued. Forfeitures have been estimated based on historical experience and periodically reviewed. Cancellation of an award accompanied by the concurrent grant of a replacement award is accounted for as a modification of the terms of the cancelled award ("modification awards"). The compensation costs associated with the modification awards are recognized if either the original vesting condition or the new vesting condition has been achieved. Such compensation costs cannot be less than the grant-date fair value of the original award. The incremental compensation cost is measured as the excess of the fair value of the replacement award over the fair value of the cancelled award at the cancellation date. Therefore, in relation to the modification awards, the Company recognizes share-based compensation over the vesting periods of the new options, which comprises, (1) the amortization of the incremental portion of share-based compensation over the remaining vesting term and (2) any unrecognized compensation cost of original award, using either the original term or the new term, whichever is higher for each reporting period.

The Company accounts for share awards issued to non-employees in accordance with the provisions of ASC subtopic 505-50 ("ASC 505-50"), *Equity: Equity-based Payments to Non-Employees*. Under ASC 505-50, the Company uses the Black-Scholes option pricing model method to measure the value of options granted to non-employees at each vesting date to determine the appropriate charge to share-based compensation. ASC 718-10 also requires share-based compensation to be presented in the same manner as cash compensation rather than as a separate line item.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Earnings Per Share (“EPS”)

The Company computes earnings per Class A and Class B ordinary shares in accordance with ASC subtopic 260-10 (“ASC 260-10”). *Earnings Per Share: Overall*, using the two class method. Under the provisions of ASC 260-10, basic net income per share is computed using the weighted average number of ordinary shares outstanding during the period except that it does not include unvested ordinary shares subject to repurchase or cancellation. Diluted net income per share is computed using the weighted average number of ordinary shares and, if dilutive, potential ordinary shares outstanding during the period. Potentially dilutive securities have been excluded from the computation of diluted net income per share if their inclusion is anti-dilutive. Potential ordinary shares consist of the incremental ordinary shares issuable upon the exercise of stock options, restricted shares subject to forfeiture, and contracts that may be settled in the Company’s stock or cash. The dilutive effect of outstanding stock options and restricted shares is reflected in diluted earnings per share by application of the treasury stock method. The computation of the diluted net income per share of Class A ordinary shares assumes the conversion of Class B ordinary shares, while the diluted net income per share of Class B ordinary shares does not assume the conversion of those shares.

The liquidation and dividend rights of the holders of the Company’s Class A and Class B ordinary shares are identical, except with respect to voting. As a result, and in accordance with ASC subtopic 260-10 (“ASC 260-10”), *Earnings Per Share: Overall*, the undistributed earnings for each year are allocated based on the contractual participation rights of the Class A and Class B ordinary shares as if the earnings for the year had been distributed. As the liquidation and dividend rights are identical, the undistributed earnings are allocated on a proportionate basis. Further, as the conversion of Class B ordinary shares is assumed in the computation of the diluted net income per share of Class A ordinary shares, the undistributed earnings are equal to net income for that computation.

For the purposes of calculating the Company’s basic and diluted earnings per Class A and Class B ordinary shares, the ordinary shares relating to the options that were exercised are assumed to have been outstanding from the date of exercise of such options.

Concentration of RisksConcentration of credit risk

Financial instruments that potentially subject the Company to significant concentration of credit risk primarily consist of cash and cash equivalents, restricted cash, short-term investments and accounts receivable. The Company has RMB8.20 billion (US\$1.24 billion) in cash and cash equivalents, restricted cash and short-term investments. The Company has approximately RMB8.06 billion (US\$1.22 billion) in cash, bank deposits and money market funds in the PRC, which constitute about 98.29% of total cash and cash equivalents and short-term investments. In the event of bankruptcy of one of the financial institutions in which the Company has deposits or investments, it may be unlikely to claim its deposits or investments back in full.

Accounts receivable are typically unsecured and derived from revenue earned from customers and agents in China, which are exposed to credit risk. The risk is mitigated by credit evaluations the Company performs on its customers and its ongoing monitoring process of outstanding balances. The Company maintains reserves for estimated credit losses and these losses have generally been within its expectations.

Business and economic risks

The Company participates in a dynamic high technology industry and believes that changes in any of the following areas could have a material adverse effect on the Company’s future financial position, results of operations or cash flows: changes in the overall demand for services and products; changes in business offerings; competitive pressures due to new entrants; advances and new trends in new technologies and industry standards; changes in bandwidth suppliers; changes in certain strategic relationships or customer relationships; regulatory

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

considerations; copyright regulations; and risks associated with the Company's ability to attract and retain employees necessary to support its growth.

No customer or any Baidu Union member generated greater than 10% of total revenues in any of the periods presented.

The Company's operations could be adversely affected by significant political, economic and social uncertainties in the PRC.

Currency convertibility risk

Substantially all of the Company's businesses are transacted in RMB, which is not freely convertible into foreign currencies. All foreign exchange transactions take place either through the People's Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China. Approval of foreign currency payments by the People's Bank of China or other regulatory institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

Foreign currency exchange rate risk

The Company's exposure to foreign currency exchange rate risk primarily relates to cash and cash equivalents and short-term investments denominated in the U.S. dollar. The functional currency of the Company is US\$, and the reporting currency is RMB. Since July 21, 2005, the RMB has been permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. On June 19, 2010, the People's Bank of China announced the end of the RMB's de facto peg to US\$, a policy which was instituted in late 2008 in the face of the global financial crisis, to further reform the RMB exchange rate regime and to enhance the RMB's exchange rate flexibility. The exchange rate floating bands will remain the same as previously announced in the inter-bank foreign exchange market. The depreciation of the US\$ against RMB was approximately 3.31% in 2010. Any significant revaluation of RMB may materially and adversely affect the Company's cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, the ADS in U.S. dollars. As a result, an appreciation of RMB against the U.S. dollar would result in foreign currency translation losses when translating the net assets of the Company from the U.S. dollar into RMB.

The functional currency of the subsidiaries in Japan is Japanese Yen ("JPY"), and the reporting currency is RMB. During 2010, JPY appreciated by approximately 10.23% against RMB. The appreciation of JPY against RMB results in foreign currency translation gains when translating the net assets into RMB.

For the years ended December 31, 2008, 2009 and 2010, the net foreign currency translation loss resulting from the translation from the respective functional currencies to the RMB reporting currency recorded in the Company's other comprehensive loss was RMB27.60 million, RMB3.96 million and RMB3.87 million (US\$0.59 million), respectively.

Recent Accounting Pronouncements

In October 2009, the FASB issued ASU No. 2009-13 ("ASU 2009-13"), *Multiple-Deliverable Revenue Arrangements*. ASU 2009-13 amends ASC sub-topic 605-25 ("ASC 605-25"), *Revenue Recognition: Multiple-Element Arrangements*, regarding revenue arrangements with multiple deliverables. This standard addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, and how the arrangement consideration should be allocated among the separate units of accounting. This standard establishes a selling price hierarchy for determining the selling price of a deliverable, which is based on: (a) vendor-specific objective evidence; (b) third-party evidence; or (c) estimated selling price. This standard also eliminates the residual method of allocation and requires that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method. In addition, this standard significantly expands required disclosures related to a vendor's multiple-deliverable revenue arrangements. This standard is

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

effective for fiscal years beginning after June 15, 2010 and to be applied retrospectively or prospectively for new or materially modified arrangements. In addition, early adoption is permitted. The Company will adopt ASU 2009-13 beginning January 1, 2011 and the Company is in the process of assessing the impact of the adoption of the standard on its consolidated financial statements.

In April 2010, the FASB issued ASU No. 2010-13 (“ASU 2010-13”), *Compensation-Stock Compensation (“ASC 718”): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades*. The objective of this standard is to address the classification of an employee share-based payment award with an exercise price dominated in the currency of a market in which the underlying equity security trades. ASC 718 provides guidance on the classification of a share-based payment award as either equity or liability. A share-based payment award that contains a condition that is not a market, performance, or service condition is required to be classified as a liability. ASU 2010-13 provide amendments to ASC 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity’s equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. Then amendments in this standard are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 31, 2010. Early application is permitted. The Company does not expect the adoption of ASU 2010-13 will have a material impact on its consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-28 (“ASU 2010-28”), *Intangibles — Goodwill and Other (“ASC 350”): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. The objective of this standard is to address questions about entities with reporting units with zero or negative carrying amounts because some entities concluded that Step 1 of the test is passed in those circumstances because the fair value of their reporting unit will generally be greater than zero. The amendments in this standard modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. This standard is effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. The Company does not expect the adoption of ASU 2010-28 will have a material impact on its consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-29 (“ASU 2010-29”), *Disclosure of Supplementary Pro Forma Information for Business Combinations (“ASC 805”)*. The objective of this standard is to address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations. This standard specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. This standard also expands the supplemental pro forma disclosures under ASC 805 to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This standard is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. The Company does not expect the adoption of ASU 2010-29 will have a material impact on its consolidated financial statements.

3. INVESTMENTS

Short-term investments

As of December 31, 2009 and 2010, the Company’s short-term investments, which were fixed-rate investments classified as held-to-maturity securities, totaled approximately RMB381.15 million and RMB376.49 million (US\$57.04 million), respectively. As of December 31, 2010, all the fixed-rate investments were time deposits in commercial banks and financial institutions with an original maturity of less than one year.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

During the years ended December 31, 2008, 2009 and 2010, the Company recorded short-term investment gains and interest income of RMB8.75 million, RMB8.18 million and RMB37.21 million (US\$5.64 million) in the consolidated statements of income, respectively.

Short-term investments as of December 31, 2009 and 2010 were as follows:

	As of December 31, 2009				
	Amortized Cost	Gross Unrecognized Holding Gains	Gross Unrecognized Holding Losses	Fair Value	Fair Value
	RMB	RMB	RMB	RMB	US\$
(In thousands)					
Short-term investments:					
Held-to-maturity securities(1)					
Fixed-rate investments	381,149	354	—	381,503	57,803
	<u>381,149</u>	<u>354</u>	<u>—</u>	<u>381,503</u>	<u>57,803</u>
As of December 31, 2010					
	Amortized Cost	Gross Unrecognized Holding Gains	Gross Unrecognized Holding Losses	Fair Value	Fair Value
	RMB	RMB	RMB	RMB	US\$
(In thousands)					
Short-term investments:					
Held-to-maturity securities(1)					
Fixed-rate investments	376,492	5	(1,263)	375,234	56,854
	<u>376,492</u>	<u>5</u>	<u>(1,263)</u>	<u>375,234</u>	<u>56,854</u>

(1) The Company's held-to-maturity securities are stated at amortized cost and the fair value is determined based on a discounted cash flow model using the discount curve of market interest rates.

Long-term investments

The Company's long-term investments consist of cost method investments, equity method investments and available-for-sale securities.

Long-term available-for-sale securities

The Company's long-term investments in available-for-sale securities are investments which are neither classified as cost method investments nor equity method investments.

In May 2010, the Company acquired 4,942,784 series A-1 convertible redeemable preferred shares of 6DXchange Inc. with a total cash consideration of US\$3.79 million. The Company holds 11.60% of equity interests of 6DXchange on an as-converted basis. In accordance with ASC 320-10, investments in securities which are redeemable at the option of the investor are considered debt securities. The investment in 6DXchange Inc. was classified as available-for-sale debt securities because it was not classified as either held-to-maturity or trading securities as the convertible redeemable preferred shares have no stated maturity date and the Company does not have the intent to sell it in the near term. As the Company does not expect to sell or redeem it within one year and has the intent to hold it for long-term returns, the investment is classified as long-term available-for-sale securities.

As of December 31, 2010, the fair value of long-term investments in available-for sale securities approximates the cost of the investment of US\$3.79 million. For further information, see Note 18.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Cost method investments

The Company's carrying amount of cost method investments was RMB12.29 million and RMB204.35 million (US\$30.96 million) as of December 31, 2009 and 2010, respectively. The increase is primarily due to the investment in the ordinary shares of a privately-held, PRC-based home furnishing E-commerce company in 2010, in which the Company does not have significant influence. The impairment charges on cost method investments were RMB7.99 million, nil and nil for the years ended December 31, 2008, 2009 and 2010, respectively.

Equity method investments

In July 2009, Beijing Perusal, together with Paibo Online (Beijing) Technology Co., Ltd. ("Paibo"), a subsidiary of Beijing News, set up a joint venture, Beijing Paibo Times Technology Co., Ltd. ("Paibo Times"), to operate a community website and provide information of interest to Beijing local residents. The registered capital of Paibo Times is RMB5.34 million (US\$0.81 million). The Company holds 42.12% equity interest in Paibo Times and accounts for the investment under the equity method.

In February 2010, the Company, Providence Equity Partners ("Providence"), and Dragon Ventures Limited ("Dragon") signed an agreement, pursuant to which Providence and Dragon agreed to acquire US\$50.00 million in convertible redeemable preferred shares and US\$1.00 million in convertible preferred shares, respectively, of Qiyi.com, Inc., a Cayman Islands company established by the Company. Qiyi.com, Inc., and entities under its control, develop and operate an advertising supported online video business. The Company accounts for the investment in Qiyi.com, Inc. under the equity method despite holding 100% of its common shares due to certain substantive participating rights provided to the convertible redeemable preferred shareholder.

On January 27, 2010, the Company signed an agreement with Rakuten, Inc. ("Rakuten"), an e-commerce website in Japan, to establish a joint venture, RakuBai Limited, to build a B2B2C online shopping mall for PRC Internet users. B2B2C refers to an online marketplace that links and provides value-added services to both business to business and business to consumer. On February 12, 2010, RakuBai Limited was incorporated in Hong Kong. The registered capital of RakuBai Limited is US\$20.0 million. The Company holds 49% equity interest in RakuBai Limited and accounts for the investment under the equity method.

On August 25, 2010, Baidu Netcom, together with Chongqing Yubao Culture Communication Co., Ltd. ("Yubao"), Chongqing Service News Office ("Service News") and a third party individual, established Chongqing Rongdu Technology Co., Ltd. ("Chongqing Rongdu") to operate a community website and provide daily information of interest to Chongqing local residents. The registered capital of Chongqing Rongdu is RMB2.50 million (USD\$0.38 million). Baidu Netcom, Yubao, Service News and the third party individual hold 40%, 30%, 15% and 15% of the JV's equity interest, respectively. The Company accounts for its investment in Chongqing Rongdu under the equity method.

On December 22, 2010, Henan Ruizhiqi Information Technology Co., Ltd. ("Henan Ruizhiqi"), a third party company, transferred its 40% of the equity interest in Henan Feidian Network Technology Co., Ltd. ("Henan Feidian") to Baidu Netcom at the nominal amount of RMB1.00 (USD\$0.15). Henan Feidian operates a community website and provides daily information of interest to Henan local residents. The registered capital of Henan Feidian is RMB2.00 million (US\$0.30 million). Baidu Netcom, Henan Ruizhiqi, Henan Business News and a third party individual hold 40%, 10%, 35% and 15% of Henan Feidian's equity interest, respectively. The Company accounts for its investment in Henan Feidian under the equity method. Henan Feidian had limited operation as of December 31, 2010.

There was no impairment loss recognized for the years ended December 31, 2008, 2009 and 2010.

BAIDU, INC.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Company's indefinite-lived intangible assets include one domain name asset and the Company's trademark of "BAIDU". This domain name asset was acquired in July 2006 and is not subject to amortization, as the remaining useful life is indefinite. In addition, the Company's trademark of "BAIDU" qualified as a China well-known trademark by the State Trademark Office in March 2008. The registration costs were recorded as an intangible asset not subject to amortization, as the remaining useful life is indefinite.

Amortization expense for the years ended December 31, 2008, 2009 and 2010 was RMB12.08 million, RMB10.73 million and RMB10.25 million (US\$1.55 million), respectively. Estimated amortization expense relating to the existing intangible assets with finite lives for each of next five years is as follows:

	RMB	US\$
	(In thousands)	
For the year ending December 31,		
2011	7,944	1,204
2012	5,455	827
2013	4,488	680
2014	3,166	480
2015	2,815	427

8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	2009	December 31,	
	RMB	2010	2010
		RMB	US\$
		(In thousands)	
Accrued payroll and welfare	95,412	150,160	22,752
Accrued operating expenses	162,963	297,248	45,038
Tax payable	147,656	295,432	44,762
Distributors' deposits	3,971	7,431	1,126
Purchase of fixed assets	144,214	277,669	42,071
Traffic acquisition costs	109,305	133,864	20,282
Bandwidth costs	16,417	34,488	5,225
Professional expenses	19,420	25,937	3,930
Customers' deposits on e-commerce platform	19,513	38,278	5,800
Others	30,990	57,264	8,676
	<u>749,861</u>	<u>1,317,771</u>	<u>199,662</u>

The increase in accrued operating expenses resulted primarily from the incentives accrued for advertising agents.

The increase in purchase of fixed assets was mainly due to the purchase of computer equipment.

The increase in traffic acquisition costs was primarily due to the growth of revenue contribution from Baidu Union members.

9. INCOME TAXES

The Company is incorporated in the Cayman Islands and conducts its primary business operations through the subsidiaries and VIEs in the PRC and Japan. It also has intermediate holding companies in the British Virgin Islands ("BVI") and Hong Kong. Under the current laws of the Cayman Islands and BVI, the Company is not subject to tax on income or capital gains. Additionally, upon payments of dividends by the Company to its shareholders, no

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Cayman Islands and BVI withholding tax will be imposed. Under the Hong Kong tax laws, Baidu Hong Kong is exempted from income tax on its foreign-derived income and there are no withholding taxes in Hong Kong on remittance of dividends.

China

Under the current EIT Law which has been effective since 2008, domestic enterprises and Foreign Investment Enterprises (the “FIE”) are subject to a unified 25% enterprise income tax rate, except for certain entities that enjoyed the tax holidays.

An enterprise recognized as a qualified “High and New Technology Enterprise” (“HNTE”) after 2008 is granted the preferential EIT rate of 15%. If an enterprise, which was recognized as a “HNTE” before 2008, is also verified as a HNTE after 2008, it is entitled to its remaining tax holiday granted before 2008 and a preferential EIT rate of 15% upon expiration of the tax holiday thereafter. In accordance with tax circular Guoshuihan [2010] No. 157, a qualified HNTE which is in the transitional period of the preferential reduction of tax rates may choose to enjoy a subsequent 50% reduction on the transitional tax rate, or a preferential EIT rate of 15% without further 50% reduction.

A qualified “Software Enterprise” is entitled to 2-year exemption and subsequent 50% tax rate reduction for 3 years. If the applicable preferential EIT rate for a “Software Enterprise” before 2008 is 15%, it enjoys gradual increase in tax rate from 2008 to 2012, specifically, 18% in 2008, 20% in 2009, 22% in 2010, 24% in 2011, and 25% in 2012 according to Guofa [2007] No. 39. Thus, if an enterprise was recognized as a qualified “Software Enterprise” before 2008 and still retains this qualification after 2008, the tax exemptions and deductions enjoyed by the qualified “Software Enterprise” are based on the applicable tax rates.

Baidu Online, recognized as a qualified “HNTE” after 2008, has enjoyed the preferential EIT rate of 15% from 2008.

Baidu Times, a qualified “HNTE” before 2008, was granted prior to the effectiveness of the current EIT Law, tax holidays for several years, that is, a 3-year tax exemption from 2006 to 2008, and a subsequent 50% tax reduction on the transitional tax rate for 2 years from 2009 to 2010, namely, 10% in 2009 and 11% in 2010.

Baidu China, was recognized as a qualified “Software Enterprise” before 2008 and still retains this qualification after 2008, and thus is entitled to 2-year exemption from 2006 to 2007 and subsequent 50% tax rate reduction for 3 years from 2008 to 2010 at 9% in 2008, 10% in 2009, and 11% in 2010.

Under the current EIT Law, dividends paid by a FIE to any of its foreign non-resident enterprise investors are subject to a 10% withholding tax. Thus, the dividends, if and when payable by Baidu Online to Baidu BVI, would be subject to 10% withholding tax. A lower tax rate will be applied if such foreign non-resident enterprise investor’s jurisdiction of incorporation has signed a tax treaty or arrangement for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income with China. There is such a tax arrangement between PRC and Hong Kong. Thus, the dividends, if and when payable by Baidu Times and Baidu China to Baidu HK, would be subject to 5% withholding tax rather than statutory rate of 10% provided that Baidu HK meets the requirements stipulated by relevant PRC tax regulations. Furthermore, pursuant to the applicable circular and interpretations of the current EIT Law, dividends from earnings created prior to 2008 but distributed after 2008 are not subject to withholding income tax.

Moreover, the current EIT Law treats enterprises established outside of China with “effective management and control” located in China as PRC resident enterprises for tax purposes. The term “effective management and control” is generally defined as exercising overall management and control over the business, personnel, accounting, properties, etc. of an enterprise. The Company, if considered a PRC resident enterprise for tax purposes, would be subject to the PRC Enterprise Income Tax at the rate of 25% on its worldwide income for the

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

period after January 1, 2008. As of December 31, 2010, the Company has not accrued for PRC tax on such basis. The Company will continue to monitor its tax status.

Japan

Baidu Japan with a paid-in capital in excess of JPY100.00 million is subject to national income tax of 30%. Baidu Japan is also subject to inhabitants tax, assessed by both prefectures and municipalities. Inhabitants tax is computed as a percentage of national income tax. The per capita tax is based on the Company's capitalization and the number of employees. In addition, Baidu Japan is subject to a corporate enterprise tax on a pro forma basis based on the amount of taxable profit subject to the corporate tax, added-value components, (e.g. labor costs, net interest and rental payments, income/loss for current year) and a capital component. Baidu Japan has been in a cumulative loss position since its inception.

The Company had minimal operations in jurisdictions other than the PRC. Income (loss) before income taxes consists of:

	For the Years Ended December 31,			
	2008 RMB	2009 RMB	2010 RMB	2010 US\$
	(In thousands)			
PRC	1,360,326	1,907,575	4,321,910	654,834
Non-PRC	(196,147)	(224,454)	(260,747)	(39,507)
	<u>1,164,179</u>	<u>1,683,121</u>	<u>4,061,163</u>	<u>615,327</u>

The pre-tax losses from non-PRC operations consists primarily of the operating costs, administration expenses, interest income and charges for share-based compensation. Income taxes consist of:

	For the Years Ended December 31,			
	2008 RMB	2009 RMB	2010 RMB	2010 US\$
	(In thousands)			
Current income tax	129,885	222,778	616,994	93,483
Income tax refund due to reduced transitional tax rate	—	(13,923)	(6,625)	(1,004)
Deferred income tax benefit	(58,553)	(62,308)	(129,415)	(19,608)
Valuation allowance	44,739	51,470	55,041	8,340
	<u>116,071</u>	<u>198,017</u>	<u>535,995</u>	<u>81,211</u>

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The reconciliation of tax computed by applying respective statutory income tax rate to pre-tax income is as follows (Amounts in thousands of Renminbi (“RMB”), and in thousands of U.S. Dollars (“US\$”), except for per share data):

	For the Years Ended December 31,			
	2008 RMB	2009 RMB (In thousands)	2010 RMB	2010 US\$
Expected taxation at PRC EIT statutory rate	291,045	420,780	1,015,329	153,837
Effect of differing tax rates in different jurisdictions	3,533	5,101	8,416	1,275
Permanent differences — non-taxable income	(2,121)	(6,640)	(733)	(111)
Permanent differences — non-deductible expenses	2,703	9,001	10,935	1,656
Tax incentives relating to R&D expenditures	(17,848)	(9,125)	(22,925)	(3,473)
Effect of tax exemption and reduction inside PRC	(205,980)	(258,647)	(533,802)	(80,879)
Income tax refund due to overpaid provisional tax	—	(13,923)	(6,625)	(1,004)
Addition of under-provided EIT for previous years	—	—	10,359	1,570
Addition to valuation allowance	44,739	51,470	55,041	8,340
Taxation for the year	116,071	198,017	535,995	81,211
Effective tax rate	9.97%	11.76%	13.20%	13.20%
Basic earnings per share for Class A and Class B ordinary shares effect of tax exemptions and reductions inside the PRC	6.02	7.48	15.34	2.32

The Company’s effective tax rate increased in fiscal year 2010 compared with 2009, primarily due to the increase of the preferential EIT rates for Baidu China and Baidu Times, which increased from 10% to 11% and 7.5% to 11%, respectively.

The tax effects of temporary differences that give rise to the deferred tax balance at December 31, 2009 and 2010 are as follows:

	December 31,		
	2009 RMB	2010 RMB (In thousands)	2010 US\$
Provision for doubtful receivables	2,103	1,964	298
Fixed assets depreciation	37,800	41,089	6,225
Net operating loss carry-forward	117,964	173,644	26,310
Accrued expenses, payroll and others	10,007	80,592	12,211
Deferred tax assets	167,874	297,289	45,044
Valuation allowance	(124,918)	(179,959)	(27,267)
Deferred tax assets, net	42,956	117,330	17,777

The Company does not believe that sufficient positive evidence exists to conclude that the recoverability of Baidu Japan’s net deferred tax assets is more likely than not to be realized. Consequently, the Company has provided full valuation allowances on the related net deferred tax assets.

As of December 31, 2010, the Company had net operating losses of approximately RMB461.00 million (US\$69.85 million) from Baidu Japan, Baidu HK and PRC entities, which can be carried forward to offset future net

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

profit for income tax purposes. The Japan net operating loss will expire beginning 2015; the PRC net operating loss will expire beginning 2014; and the HK net operating loss can be carried forward without an expiration date.

The Company has evaluated its income tax uncertainty under ASC 740-10. ASC 740-10 clarifies the accounting for uncertainty in income taxes by prescribing the recognition threshold a tax position is required to meet before being recognized in the financial statements. The Company has elected to classify interest and penalties related to an uncertain tax position, if and when required, as part of income tax expense in the consolidated statements of operations. As of December 31, 2010, there is no significant tax uncertainty impact on the Company's financial position and result of operations.

The Company did not provide for deferred income taxes and foreign withholding taxes on the undistributed earnings of foreign subsidiaries as of December 31, 2009 and 2010 on the basis of its intent to permanently reinvest foreign subsidiaries' earnings. If these foreign earnings were to be repatriated in the future, the related tax liability may be reduced by any foreign income taxes previously paid on these earnings. Determination of the amount of unrecognized deferred tax liability related to these earnings is not practicable. In the case of its VIEs, undistributed earnings were insignificant as of each of the balance sheet dates.

In general, the PRC and Japanese tax authorities have up to five and seven years respectively to conduct examinations of the Company's tax filings. Accordingly, the PRC subsidiaries' tax years 2007-2010 and the Japanese subsidiary's tax years 2007-2010 remain open to examination by the respective taxing jurisdictions.

10. LOANS PAYABLE, NONCURRENT

On October 27, 2010, Baidu Netcom borrowed a loan from the Export-Import Bank of China to finance some of its government-sponsored research projects, at the annual interest rate of 5.60%, with respect to which the government will provide a cash subsidy at the amount that approximates the interest of the loan. The commitment of the unsecured bank loan amounts to RMB140.00 million (US\$21.21 million) and can be borrowed from time to time within 3 years. As of December 31, 2010, Baidu Netcom borrowed RMB86.00 million (US\$13.03 million) under the commitment. The loan will be repaid according to the following schedule from July 30, 2012. Baidu Netcom has the right to repay and may terminate the loan upon a notice in advance.

Due Date	Principal Amount	
	RMB	US\$
	(In thousands)	
July 30, 2012	23,000	3,485
October 30, 2012	23,000	3,485
January 30, 2013	23,000	3,485
April 30, 2013	17,000	2,575
	86,000	13,030

11. EMPLOYEE DEFINED CONTRIBUTION PLAN

Full time employees of the Group in the PRC participate in a government mandated multi-employer defined contribution plan pursuant to which certain pension benefits, medical care, unemployment insurance, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require that the Group make contributions to the government for these benefits based on certain percentages of the employees' salaries. The Company has no legal obligation for the benefits beyond the contributions. The total amounts for such employee benefits, which were expensed as incurred, were RMB98.18 million, RMB141.84 million and RMB218.88 million (US\$33.16 million) for the years ended December 31, 2008, 2009 and 2010, respectively.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

12. COMMITMENTS AND CONTINGENCIES

Capital commitments

The Company's capital commitments relate primarily to expenditures on computer equipment and the consideration in relation to a business combination that will be closed in 2011. Total capital commitments contracted but not yet reflected in the financial statements amounted to RMB168.40 million (US\$25.52 million) at December 31, 2010. All of these capital commitments are to be fulfilled within the next year.

Operating lease commitments

The Company leases facilities in the PRC under non-cancelable operating leases expiring on different dates. Payments under operating leases are expensed on a straight-line basis over the periods of the respective leases. Total rental expense under all operating leases was RMB68.86 million, RMB84.43 million and RMB76.87 million (US\$11.65 million) for the years ended December 31, 2008, 2009 and 2010, respectively.

Future minimum payments under non-cancelable operating leases with initial terms of one-year or more consist of the following at December 31, 2010:

	RMB	US\$
	(In thousands)	
2011	259,927	39,383
2012	171,275	25,951
2013	151,748	22,992
2014	111,659	16,918
2015	75,457	11,433
Thereafter	79,749	12,083
	<u>849,815</u>	<u>128,760</u>

Guarantees

The Company accounts for guarantees in accordance with ASC subtopic 460-10 ("ASC 460-10"), *Guarantees: Overall*. Accordingly, the Company evaluates its guarantees to determine whether (a) the guarantee is specifically excluded from the scope of ASC 460-10, (b) the guarantee is subject to ASC 460-10 disclosure requirements only, but not subject to the initial recognition and measurement provisions, or (c) the guarantee is required to be recorded in the financial statements at fair value.

The corporate by-laws require that the Company indemnify its officers and directors, as well as those who act as directors and officers of other entities at the Company's request, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with any proceedings arising out of their services to the Company. In addition, the Company has entered into separate indemnification agreements with each director and each executive officer of the Company that provide for indemnification of these directors and officers under similar circumstances and under additional circumstances. The indemnification obligations are more fully described in the by-laws and the indemnification agreements. The Company purchases standard directors and officers insurance to cover claims or a portion of the claims made against its directors and officers. Since a maximum obligation is not explicitly stated in the Company's by-laws or in the indemnification agreements and will depend on the facts and circumstances that arise out of any future claims, the overall maximum amount of the obligations cannot be reasonably estimated.

Historically, the Company has not been required to make payments related to these obligations, and the fair value for these obligations is zero in the consolidated balance sheets as of December 31, 2009 and 2010.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Baidu Online has unconditionally guaranteed the repayment of RMB-denominated bank loans from Export-Import Bank of China and related interest and fees of Baidu Netcom. The guarantees continue until the loans, including accrued interest and fees, have been repaid in full. These guarantees expire in 2012. The maximum exposure to the Company under this commitment is RMB140.00 million (US\$21.21 million) as of December 31, 2010 and is limited to the sum of unpaid principal and interest, as well as other related expenses.

Litigation

Baidu Netcom, Baidu China, Baidu Online and Baidu Times were involved in certain cases pending in various PRC courts and arbitration as of December 31, 2010. These cases include copyright infringement cases, unfair competition cases, and defamation cases, among others. Adverse results in these lawsuits may include awards of damages and may also result in, or even compel, a change in the Company's business practices, which could result in a loss of revenue or otherwise harm the business of the Company.

As of December 31, 2010, the plaintiffs claimed compensation of RMB132.95 million (US\$20.14 million). Although the results of litigation and claims cannot be predicted with certainty, the Company does not expect the outcome of the matters discussed above will result in a material adverse effect on its business, consolidated financial position, results of operations or cash flows.

13. SHAREHOLDERS' EQUITY**Ordinary shares**

Upon completion of the Company's initial public offering ("IPO") in August 2005, 16,648,877 Class B Ordinary shares were issued upon conversion of all convertible preferred shares. In addition, immediately following the closing of the IPO, the Memorandum and Articles of Association were amended and restated such that the authorized share capital consisted of 870,400,000 ordinary shares at a par value of US\$0.00005 per share, of which 825,000,000 shares were designated as Class A ordinary shares, 35,400,000 as Class B ordinary shares, and 10,000,000 shares designated as preferred shares. The rights of the holders of Class A and Class B ordinary shares are identical, except with respect to voting and conversion rights. Each share of Class A ordinary shares is entitled to one vote per share and is not convertible into Class B ordinary shares under any circumstances. Each share of Class B ordinary shares is entitled to ten votes per share and is convertible into one Class A ordinary share at any time by the holder thereof. Upon any transfer of Class B ordinary shares by the holder thereof to any person or entity that is not an affiliate of such holder, such Class B ordinary shares would be automatically converted into an equal number of Class A ordinary shares. There were 122,856, 419,654 and 650,000 Class B ordinary shares transferred to Class A ordinary shares in 2008, 2009 and 2010, respectively.

As of December 31, 2010 there were 27,045,340 and 7,804,332 Class A and Class B ordinary shares outstanding, respectively. As of December 31, 2009 and 2010, there were no preferred shares issued and outstanding.

Comprehensive Income

Comprehensive income is defined as the change in equity of the Company during a period from transactions and other events and circumstances excluding transactions resulting from investments by owners and distributions to owners. Comprehensive income is reported in the consolidated statements of shareholders' equity. Accumulated other comprehensive income (loss) of the Company consists of foreign currency translation adjustments.

Retained earnings

In accordance with the Regulations on Enterprises with Foreign Investment of China and their articles of association, the Company's PRC subsidiaries, being foreign invested enterprises established in China, are required to make appropriations to certain statutory reserves, namely a general reserve fund, an enterprise expansion fund, a

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

staff welfare fund and a bonus fund, all of which are appropriated from net profit as reported in their PRC statutory accounts. Each of the Company's subsidiaries is required to allocate at least 10% of its after-tax profits to a general reserve fund until such fund has reached 50% of its respective registered capital. Appropriations to the enterprise expansion fund and staff welfare and bonus funds are at the discretion of the board of directors of the Company's subsidiaries.

In accordance with the China Company Laws, the Company's VIEs must make appropriations from their after-tax profits as reported in their PRC statutory accounts to non-distributable reserve funds, namely a statutory surplus fund, a statutory public welfare fund and a discretionary surplus fund. Each of the Company's VIEs is required to allocate at least 10% of its after-tax profits to the statutory surplus fund until such fund has reached 50% of its respective registered capital. Appropriation to the statutory public welfare fund is 5% to 10% of the after-tax profits as reported in the PRC statutory accounts. Effective from January 1, 2006, under the revised China Company Laws, appropriation to the statutory public welfare fund is no longer mandatory. Appropriations to the discretionary surplus fund are made at the discretion of the Company's VIEs.

General reserve and statutory surplus funds are restricted to set-off against losses, expansion of production and operation and increasing registered capital of the respective company. Staff welfare and bonus fund and statutory public welfare funds are restricted to capital expenditures for the collective welfare of employees. The reserves are not allowed to be transferred to the Company in terms of cash dividends, loans or advances, nor are they allowed for distribution except under liquidation.

	December 31,		
	2009 RMB	2010 RMB (In thousands)	2010 US\$
PRC statutory reserve funds	187,675	238,107	36,077
Unreserved retained earnings	3,252,854	6,727,590	1,019,332
	<u>3,440,529</u>	<u>6,965,697</u>	<u>1,055,409</u>

Under PRC laws and regulations, there are restrictions on the Company's PRC subsidiaries and VIEs with respect to transferring certain of their net assets to the Company either in the form of dividends, loans, or advances. Amounts restricted include paid up capital and statutory reserve funds of the Company's PRC subsidiaries and the net assets of VIEs in which the Company has no legal ownership, totaling approximately RMB879.43 million and RMB1.15 billion (US\$174.59 million) as of December 31, 2009 and 2010, respectively.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

14. EARNINGS PER SHARE (“EPS”)

On April 28, 2010, the Company announced a change in the ratio of its American depository shares (“ADSs”) representing Class A ordinary shares from one ADS for one share to ten ADSs for one share, effective on May 12, 2010. For Baidu’s ADS holders, this ratio change has the same effect as ten-for-one ADS split.

The following table sets forth the computation of basic and diluted net income per share for Class A and Class B ordinary shares.

(Amounts in thousands of Renminbi (“RMB”), and in thousands of U.S. Dollars (“US\$”), except for number of shares, per share and per ADS data)

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

15. SHARE-BASED AWARDS PLAN

Incentive Compensation Plans

In January 2000, the Company adopted the 2000 Option Plan (the “2000 Plan”). The 2000 Plan provided for the granting of share options and restricted ordinary shares to employees and consultants of the Company. All the options granted to Company employees and consultants under the 2000 Plan were nonqualified share options (“NSO”). The Company reserved 5,040,000 ordinary shares for issuance under the 2000 Plan. Under the 2000 Plan, which has expired during 2010, options granted generally vest 25% after the first year of service and ratably each month over the remaining 36-month period.

In December 2008, the Company amended the 2000 Plan by adding a new section regarding adjustment of exercise price. The exercise price per share subject to an option might be amended or adjusted in the absolute discretion of the 2000 Plan administrator, which was the Board of Directors, and the determination of which should be final, binding and conclusive. A downward adjustment of the exercise prices should be effective without the approval of the Company’s shareholders or the approval of the affected grantees.

In December 2008, the Company adopted a share incentive plan (the “2008 Plan”). The 2008 Plan provides for the granting of share incentives, which include incentive share option (“ISO”), restricted shares and any other form of award pursuant to the 2008 Plan, to members of the board, employees and consultants of the Company. However, the Company may grant ISOs only to its employees. The Company has reserved 3,428,777 ordinary shares for issuance under the 2008 Plan, which will expire in the year 2018. The vesting schedule, time and condition to exercise options will be determined by the compensation committee. The term of the options may not exceed ten years from the date of the grant, except that five years is the maximum term of an ISO granted to an employee who holds more than 10% of the voting power of the Company’s share capital.

Under the 2008 Plan, the exercise price per share subject to an option may be amended or adjusted at the discretion of the compensation committee, the determination of which shall be final, binding and conclusive. To the extent not prohibited by applicable laws or exchange rules, a downward adjustment of the exercise prices shall be effective without the approval of the Company’s shareholders or the approval of the affected grantees. If the Company grants an ISO to an employee who, at the time of that grant, owns shares representing more than 10% of the voting power of all classes of the Company’s share capital, the exercise price cannot be less than 110% of the fair market value of the Company’s ordinary shares on the date of that grant.

Starting from February 15, 2006, the Company has granted restricted Class A ordinary shares (“Restricted Shares”) of the Company. Terms for Restricted Shares are the same as share options except that Restricted Shares do not require exercise and have a two to four years vesting term.

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The following table summarizes the option activity for the year ended December 31, 2010:

Share Option	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value (US\$) (In thousands)
Outstanding, December 31, 2009	154,674	US\$110.80	2.56	46,469
Granted	23,729	US\$610.08		
Exercised	(59,068)	US\$92.00		
Forfeited/Cancelled	(19,175)	US\$133.49		
Expired	(985)	US\$17.95		
Outstanding, December 31, 2010	99,175	US\$237.99	2.57	72,164
Vested and expected to vest at December 31, 2010	94,655	US\$232.69	2.52	69,375
Exercisable at December 31, 2010	55,089	US\$115.11	1.4	46,836

The aggregate intrinsic value in the table above represents the difference between the Company's closing stock price on the last trading day in 2010 and the exercise price.

Total intrinsic value of options exercised for the three years ended December 31, 2008, 2009 and 2010 was RMB465.25 million, RMB340.13 million and RMB263.97 million (US\$40.00 million), respectively.

As of December 31, 2010, there was RMB51.32 million (US\$7.78 million) unrecognized share-based compensation cost related to share options. That deferred cost is expected to be recognized over a weighted-average vesting period of 2.90 years. To the extent the actual forfeiture rate is different from original estimate, actual share-based compensation costs related to these awards may be different from the expectation.

On February 11, 2009, the Company cancelled options previously granted to certain executives with the exercise price significantly higher than the fair market value at that time, and concurrently re-granted the same number of options at the then current fair market value. The vesting of the replacement option starts from the date of grant, and all other terms remain the same as the original option. The cancellation and re-grant was intended to provide incentives for these executives. In accordance with ASC 718-10, the Company accounted for the cancellation of an award accompanied by the concurrent grant of a replacement award as a modification of the terms of the cancelled award. Therefore, incremental compensation cost was measured as the excess of the fair value of the replacement award over the fair value of the cancelled award at the cancellation date. The incremental cost resulting from the cancellation and replacement was US\$0.60 million. The cost is being amortized on a straight-line basis over the vesting term of four years of the replacement option.

Restricted Shares

Restricted shares activity for the year ended December 31, 2010 was as follows:

Restricted Shares	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested, December 31, 2009	47,694	US\$ 224.34
Granted	44,390	US\$ 701.15
Vested	(37,312)	US\$ 220.09
Forfeited	(5,155)	US\$ 329.26
Nonvested, December 31, 2010	49,617	US\$ 643.22

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

As of December 31, 2010, there was RMB162.53 million (US\$24.63 million) unrecognized share-based compensation cost related to restricted shares. That deferred cost will be recognized over a weighted-average vesting period of 2.66 years. To the extent the actual forfeiture rate is different from the original estimate, actual share-based compensation costs related to these awards may be different from the expectation.

The fair value of each option award was estimated on the date of grant using the Black-Scholes Method valuation model. The volatility assumption was estimated based on implied volatility and historical volatility of the Company's share price applying the guidance provided by ASC subtopic 718-10 ("ASC 718-10"), *Compensation-Stock Compensation: Overall*. The Company considered the comparable data in 2008 because the Company had limited relevant historical information to support the expected volatility assumption as the Company has been a public company only since August 2005. The Company begins to estimate the volatility assumption solely based on its historical information since 2009. Assumptions about the expected term were based on the vesting and contractual terms and employee demographics. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

The following table presents the assumptions used to estimate the fair values of the share options granted in the periods presented:

	2008	2009	2010
Risk-free interest rate	1.74%~2.60%	1.18%	0.61%~1.13%
Dividend yield	—	—	—
Expected volatility range	63.52%~70.82%	85.43%	64.76%~69.70%
Weighted average expected volatility	66.54%	85.43%	68.12%
Expected life (in years)	1.63~2.64	2.65	2.65~2.66

In addition, the Company recognizes share-based compensation expense net of an estimated forfeiture rate and therefore only recognizes compensation cost for those shares expected to vest over the service period of the award. The estimation of the forfeiture rate is based primarily upon historical experience of employee turnover. To the extent the Company revises this estimate in the future, the share-based payments could be materially impacted in the year of revision, as well as in following years. During the year ended December 31, 2010, the estimated forfeiture rate decreased for the employee group primarily due to changes in historical employee turnover rates.

The exercise price of options granted during the years 2008, 2009, and 2010 equaled the market price of the ordinary shares on the grant date. The weighted-average grant-date fair value of options granted during the years 2008, 2009, and 2010 was US\$136.97, US\$94.10, and US\$279.69, respectively.

The total fair value of shares vested during the years ended December 31, 2008, 2009 and 2010 was RMB37.57 million, RMB201.83 million, RMB237.71 million (US\$36.02 million), respectively.

Total compensation cost recognized is as follows:

	For the Years Ended December 31,			
	2008 RMB	2009 RMB	2010 RMB	2010 US\$
	(In thousands)			
Cost of revenues	4,542	6,374	6,302	955
Selling, general and administrative	41,651	38,681	36,811	5,577
Research and development	37,784	41,263	50,623	7,670
Share-based compensation cost capitalized as part of internally used software in fixed assets	2,706	1,217	226	35
	<u>86,683</u>	<u>87,535</u>	<u>93,962</u>	<u>14,237</u>

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

16. RELATED PARTY TRANSACTIONS

The amounts due from related parties mainly represent payments due from advertising services provided and borrowings provided by the Company to its equity investees. The amounts due from equity investees are unsecured and repayable on contract terms, which arose in the ordinary course of business.

The amounts due to related parties represent unsecured and interest free short-term loans provided by the Company's equity investees, which arose in the ordinary course of business.

17. SEGMENT REPORTING

In accordance with ASC subtopic 280-10 ("ASC 280-10"), *Segment Reporting: Overall*, the Company's chief operating officer relies upon consolidated results of operations when making decisions about allocating resources and assessing performance of the Company; hence, the Company has only one single operating segment. The Company does not distinguish between markets or segments for the purpose of internal reporting.

The Company's revenue and long-lived assets are primarily derived from and located in the PRC. The Company has only minimal operations in Japan and other countries.

The following table sets forth revenues by geographic area:

	For the Years Ended December 31,			
	2008 RMB	2009 RMB	2010 RMB	2010 US\$
	(In thousands)			
Revenues:				
PRC	3,194,635	4,441,580	7,898,805	1,196,789
Non-PRC	3,617	6,196	16,269	2,465
	<u>3,198,252</u>	<u>4,447,776</u>	<u>7,915,074</u>	<u>1,199,254</u>

The following table sets forth long-lived assets by geographic area:

	December 31,		
	2009 RMB	2010 RMB	2010 US\$
	(In thousands)		
Long-lived assets:			
PRC	1,093,681	1,785,511	270,532
Non-PRC	49,720	45,872	6,950
	<u>1,143,401</u>	<u>1,831,383</u>	<u>277,482</u>

18. FAIR VALUE MEASUREMENT

ASC subtopic 820-10 ("ASC 820-10"), *Fair Value Measurements and Disclosures: Overall*, establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 — Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets

Level 2 — Include other inputs that are directly or indirectly observable in the marketplace

Level 3 — Unobservable inputs which are supported by little or no market activity

ASC 820-10 describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

Assets and liabilities measured at fair value on a recurring basis

In accordance with ASC 820-10, the Company measures cash equivalents and debt and equity securities, including held-to-maturity, trading and available-for-sale securities, at fair value. Cash equivalents are valued using quoted market prices. The Company's held-to-maturity securities, including fixed-rate investments and adjustable-rate investments, are stated at amortized cost with the fair value determined based on the discounted cash flow model using the discount curve of market interest rates. The Company's short-term available-for-sale securities were recorded at fair value based on quoted market prices. The Company's long-term available-for-sale securities were initially recognized at the market price. The fair value on December 31, 2010 was determined by using the income approach based on inputs that are unobservable in the market.

In May 2010, the Company acquired a long-term investment in 6DXchange Inc., which is classified as an available-for-sale security. As there was no readily determinable fair value for the investment in 6DXchange Inc., the Company estimated its fair value as of December 31, 2010 using an income approach by considering cash flow forecasts, discount rate, actual and projected operational performance and certain market data related to the business of 6DXchange Inc. As of December 31, 2010, the fair value of long-term investments in available-for sale securities approximates the cost of the investment of US\$3.79 million. There has been no impairment charge of this long-term available-for-sale security during the year ended December 31, 2010.

Assets measured at fair value on a recurring basis are summarized below (in thousands):

	Fair Value Measurement at December 31, 2009 Using			Total Fair Value at December 31, 2009	
	Quoted Prices in Active Markets for Identical Assets (Level 1) (RMB)	Significant Other Observable Inputs (Level 2) (RMB)	Significant Unobservable Inputs (Level 3) (RMB)	(RMB)	(US\$)
Cash equivalents:					
Time deposits	1,658,678	—	—	1,658,678	251,315
Money market fund	234,782	—	—	234,782	35,573
Short-term investments:					
Held-to-maturity securities					
Fixed-rate investments	—	381,503	—	381,503	57,803
	<u>1,893,460</u>	<u>381,503</u>	<u>—</u>	<u>2,274,963</u>	<u>344,691</u>

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

	Fair Value Measurement at December 31, 2010 Using			Total Fair Value at December 31, 2010	
	Quoted Prices in Active Markets for Identical Assets (Level 1) (RMB)	Significant Other Observable Inputs (Level 2) (RMB)	Significant Unobservable Inputs (Level 3) (RMB)	(RMB)	(US\$)
Cash equivalents:					
Time deposits	3,905,479	—	—	3,905,479	591,739
Money market fund	993,047	—	—	993,047	150,461
Short-term investments:					
Held-to-maturity securities					
Fixed-rate investments	—	375,234	—	375,234	56,854
Long-term investments					
Available-for-sale securities	—	—	24,814	24,814	3,760
	<u>4,898,526</u>	<u>375,234</u>	<u>24,814</u>	<u>5,298,574</u>	<u>802,814</u>

The following table presents a reconciliation for the Company's assets measured and recorded at fair value on a recurring basis, using significant unobservable inputs (Level 3) for the year ended December 31, 2010 (in thousands):

	Significant Unobservable Inputs (Level 3)	
	(RMB)	(US\$)
Balance at December 31, 2009	—	—
Purchases	24,814	3,760
Change in unrealized gain (loss) included in other comprehensive income	—	—
Balance at December 31, 2010	<u>24,814</u>	<u>3,760</u>

Assets and liabilities measured at fair value on a nonrecurring basis

The Company measures certain financial assets, including equity method investments and cost method investments, at fair value on a nonrecurring basis only if an impairment charge were to be recognized. The Company's non-financial assets, such as intangible assets, goodwill and fixed assets, would be measured at fair value only if they were determined to be other-than-temporarily impaired.

For the year ended December 31, 2010, the Company recognized an impairment loss on fixed assets, with a charge to earnings, based on the fair value measurement (Level 3) on a non-recurring basis. The fair value was determined using a discounted cash flow model under income approach based on future revenues and operating costs, using internal projections. The impairment charge amounted to RMB12.40 million (US\$1.88 million) for the year ended December 31, 2010, which resulted from reduced use of certain capitalized internal-use software due to changes in operations.

19. SUBSEQUENT EVENTS

On January 31, 2011, the Company entered into agreements with NTT DOCOMO, INC. ("DCM"), pursuant to which the parties agreed to establish a joint venture to operate mobile value-added telecommunications services and provide multiple categories of digital content. According to the agreements, DCM will subscribe for new ordinary shares in the new joint venture in two installments in 2011, with a total consideration of US\$22.50 million. The

BAIDU, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Company and DCM will ultimately hold 80% and 20% of the equity interest in the new joint venture respectively, upon the completion of the ordinary shares subscription.

On February 28, 2011, the Company entered into agreements with ANJUKE INC. ("ANJUKE"), a company incorporated and existing under the laws of the Cayman Islands, pursuant to which the Company agreed to subscribe for 1,981,378 series C preferred shares of ANJUKE with a total cash consideration of US\$23.0 million. The Company will hold 5% of equity interest in ANJUKE on an as-converted basis and account for the investment under the cost method upon the completion of the preferred shares subscription.
